**DETAILED ACTION**

1. Claims are rejected under 35 U.S.C. 101 as shown in office action mailed to applicant on November 17, 2004.
2. Claims are rejected under 35 U.S.C. 102(e) as shown in office action mailed to applicant on November 17, 2004..
3. The drawing correction filed by applicant is acceptable.
4. Applicant's arguments filed 11/17/04 have been fully considered but they are not persuasive.

Applicant argues at page 10, last two paragraph that "Nehei fails to teach or suggest computing an expected value of a response transmitted by each of information-processing terminals" and "selecting some of a plurality of contents to be transmitted to each of information-processing terminals". The claimed invention is transmitting information from terminals to contents then sending back some of these information back to terminals. Therefore, the claimed information are taught by Nehei because the invention is merely an exchange of information between terminals and contents.
